

[Program onsdag 6. januar](#)

[Program torsdag 7. januar](#)

[Program fredag 8. januar](#)

[Posters](#)

Postere

T1 Berggrunn

- [Can relict landscapes shine though the glacial hammer? Geomorphology of three half-grabens in Norway and Svalbard](#) Haaland, L.C., Osmundsen, P.T., Redfield, T.R., Svendby, K., Senger; K.
- [Identifying the transition between the Gula Complex and the Fundsjø Group in the Tverråtjønnan area, Trøndelag, central Norwegian Caledonides](#) Stenberg, E., Uthus, M., Gasser, D., Ksienzyk, A., Meyer, G., Ofstad, F.
- [Detachment Faulting, Successive Incision and Controls on Supradetachment Basin Formation at the Mid-Norwegian Rifted Margin](#) Gresseth, J. L. S. & Osmundsen, P. T.
- [Geophysical and geological bedrock mapping, eastern Trondheim Nappe Complex, Mid-Norway](#) Ksienzyk, A.K., Nasuti, A., Baranwal, V., Bingen, B., Bjerkgård, T., Brønner, M., Gasser, D., Grenne, T., Haase, C., Jakob, J., Meyer, G.B., Ofstad, F. & Wang, Y.
- [Titanite petrochronology in the Sveconorwegian Nisser detachment zone, Telemark, Norway](#) Haugsnes, V., Torgersen, E., Bingen, B., Henderson, I.H.C.
- [Fluid-producing mineral reactions and microfabric development during formation of nodular sillimanite-gneiss \(Bamble lithotectonic domain, south Norway\)](#) Engvik, A.K., Trepmann, C., Austrheim, H.
- [Nytt kart over Norges berggrunn 1:1,350,000 - forhåndsvisning](#) Torgersen, E., Arntsen, M.L., Bingen, B., Gasser, D., Gunleiksrud, I.H., Nilssen, C., Nordahl, B., Pettersen, E., Rasmussen, M.C., Svendby, A.K.
- [Quantifying S in silicate melts from their crystal cargo: data and applications](#) Callegaro, S., Baker, D.R., Marzoli, A.

T2 Sedimentologi

- [3D modelling and interpretation of channels in the Aspelintoppen Formation, Spitsbergen, Svalbard, a facies analysis](#) Bøgh, A.R.D., Eidem, C.H., Jensen, M.A., Holmlund, E.S.

T3 Kvartær & kryosfære

- [An outburst-flood generated scour along lake Nugguren, SE Norway -not a landslide pit!](#) Hansen, L., Tassis, G., Larsen, B.E., Høgaas, F.
- [A clearer view of the Kveithola Slide and neighbouring slides, Norwegian Sea](#) Wiberg, D.H., Jakobsen, F.W., Bellec, V., Bjarnadóttir, L.R. Bøe, R.
- [Snow Avalanches on Svalbard: investigating changes in depositional patterns and their palaeoclimatic significance](#) Lofthus, J.B., Rubensdotter, L., Nixon, F.C., Hancock, H.
- [A part of the Stuoragurra postglacial fault complex, at Máze in N-Norway, is less than 600 yrs old.](#) Olsen, L., Olesen, O., Høgaas, F., Tassis, G.

T4 Klima

[Filling the Svalbard Rock Vault: Opportunities for deep-time paleoclimate studies](#)

Senger, K., Jochmann, M., Smyrak-Sikora, A., Betlem, P., Planke, S., Mørk, A., Olaussen, S., Grundvåg, S.-A., Schiellerup, H., Lord, G., Jensen, M.

T5 Geofarerer

[Geologiske undersøkelser av det ustabile fjellpartiet Åsvedkammen](#)

Raunig, M.S., Skattum, S., Rosseland, T.L. Hilger, P. Bredal, M., Penna, I.

[Study of the controlling factors for run-out length of “steinskred” and test existing software packages for usefulness for “steinskred”](#)

Kolstad, S.T.

[Extensive instrumentation of an unstable slope – monitoring active deformation of a rock column and scree deposits at Stampa \(Aurland\)](#)

Scheiber, T., Hilger, P., Henriksen, H., Samnøy, S. F., Nordvik, T., Helland-Hansen, I., Dietze, M. & Kristensen, L.

T8 Mineral

[New Geochemical data and Maps from Mid- and Northern Norway](#)

Flem, B., Finne, T.E., Andersson, M., Acosta-Góngora, P.

[Geochemical characteristics of the volcanogenic massive sulphide deposits \(VMS\) on the Bømlø and Stord Islands, Sunnhordland, SW Norway](#)

Fjellet, T., Palinkas, S.S., Pedersen, R.B., Stubsteid, H.H.

[Geochemical characteristics of the Lykling gold-bearing quartz vein mineralization, Bømlø, Sunnhordland](#)

Forsberg, F.R., Palinkas, S.S., Pedersen, R.B., Stubseid, H.H.

[Structural controls on carbonate deposits in Nordland: 3D modelling and visualisation](#)

Henderson, I.H.C., Raaness, A., Korneliussen, A.

[Prospecting a Structurally Complex Marble Occurrence in Vassbygda, Helgeland Nappe Complex, Nordland](#)

Carlsen, B., Torgersen, E., Storruste, B.K

[The Cu mineralization in the Alta-Kvænangen Tectonic Window, northern Norway](#)

Palinkas, S.S., Hansen, H. Simonsen, S.S., Hilmo, J.B., Faber, C., Sahlström, F., Mun, Y., Berg, S.

T10 Petroleum

[Caprock characterization of Longship CCS project](#)

Rahman, M.J., Fawad, M., Mondol, N.M.

[Reservoir Characterization of Utsira High, central North Sea](#)

Olsen, H.B., Mondol, N.H.

[Characterization of HTHP Reservoir in the northern North Sea, Offshore](#)

Shahid, A.A, Fawad M., Rahman M.J., & Mondol N.H.

[Reservoir characterization of Jurassic sandstones in the SW Barents Sea](#)

Kizatbay A., Rahman M.J. & Mondol N.H.

[Reservoir Characterization of Utsira High, central North Sea](#)

Olsen, H.B., Mondol, N.H.

T12 Geovitenskap

[Ecological implications of changing sources and accumulation rates of organic carbon during the last 300](#)

Aasgaard, S.M.

[years in Hvaler, ytre Oslofjorden – A geochemical and micropalaeontological study](#)

[Pilot investigations of acid sulfate soils in Alta, Norway. Is it a national issue?](#) Andersson, M., Hansen, L. & Flem, B.

[S heterogeneities in barite, aragonite, & pyrite record geochemical evolution of cold seeps](#) Wood, R.S., Lepland, A., Richardson, J, Jones, C., Fike, D.A.

T14 Grenseland

[Bergtatt av geologi - blogg.forskning.no/bergtatt](#)

Engvik, A.K.

[Kortreist fyr – en bygningshistorie fra Hustadvika](#)

Engvik, A.K., Eide, K.J.

[Program onsdag 6. januar](#)

[Program torsdag 7. januar](#)

[Program fredag 8. januar](#)
